FROM RAW TO REFINED

CLEANING & WASHING

Using advanced cleaning and washing systems, all raw materials are carefully purified to eliminate dust, soil, and contaminants. This critical step ensures uncompromised hygiene and prepares the ingredients for high-quality processing.

GRINDING & GRADING

Ingredients are expertly ground and blended under controlled conditions to retain their natural essence and ensure uniformity. Each batch is then meticulously sorted and graded to meet precise quality specifications for global markets.

RAW MATERIAL SELECTION

Our process begins with the careful selection of superior-quality raw materials, sourced from trusted farms and verified suppliers. Every batch is meticulously evaluated for its natural characteristics, ensuring unmatched purity, consistency, and excellence from the very first step.

CONTROLLED DEHYDRATION

Each ingredient is precisely prepared through standardized cutting and processing techniques to achieve uniformity and consistency. It is then gently dehydrated using advanced technology, preserving its natural characteristics while ensuring long-lasting freshness and stability.

PACKAGING, STORAGE

Products are securely packed using advanced hygienic systems to maintain freshness and integrity. Carefully stored under controlled conditions, they are efficiently dispatched through optimized logistics to ensure seamless global delivery with uncompromised quality.

DEHYDRATED RED ONION RANGE

LONG SHELF LIFE & EASY STORAGE

Our Dehydrated Red Onion Range is produced from carefully selected fresh onions, processed using advanced dehydration techniques to retain natural flavor, aroma, and colors.

RED ONION POWDER

MADE FROM FRESH PREMIUM ONIONS

- Mesh: 80–120 mesh
- Moisture: $\leq 5\%$
- Color: Pink to light red
- Shelf Life: 12–24 months

RED ONION GRANULES

READY-TO-COOK MIXES

- Size: 0.5–1 mm
- Free-flowing texture
- Moderate flavor release

RED ONION FLAKES

- Size: 8–25 mm
- Natural layered texture
- High rehydration capacity

RED ONION MINCED

- Size: 3–5 mm
- Uniform cut
- Quick hydration

Designed for convenience and long shelf life, these products are ideal for food processing, seasoning blends, ready meals, and HoReCa applications. Free from additives and preservatives, the range ensures consistent quality and export-grade performance across all format
